

## Unifix Cubes Blending Sight Words

Your child's words for the week:

Day 1: Cut out the picture cards. Place a picture card on your mat. Have your child create the word for each picture by placing the correct cube on their mat. Have them say the individual sound for each letter. Next, push the cubes together and have your child read the whole word. When blending, the child should make the individual sound for each of the letters of the word. The word should then be said while sweeping a finger under the letters from left to right.

Day 2: Repeat Day 1

Day 3: Cut off the spelling of the words from the picture cards. Have your child create the word for each picture by placing the correct cube on their mat. Have them say the individual sound for each letter. Then, check the spelling of each of created words.

Day 4: Repeat Day 3

Day 5: Read My Cat Max with your child. Point out the short vowel a words within the story.
