

## Show Me The Time

*Indicating Time on a Clock, Writing Time*

Materials: Clock White Boards, Dry Erase Markers, Chips

Provide each student with a clock white board and a marker. Say a time (3:00) and have the student draw the correct time on the clock and write the time in numerals on the clock. If the student is correct, give the student a chip. See how many chips the students can get by the end of the session.

Adjust the difficult of the activity as needed. For example, for students just beginning to learn to tell time, use only hours. For students who are progressing with their skills, use  $\frac{1}{2}$  hours and quarter hours.
